COMPANY PROFILE

Kitty Industries Ltd. a home of excellence of electrical appliance and accessories, presents varieties of its designs and quality. Our Management, Engineering, Production and R&D Department are working with their best to meet the trend of the latest Electrical designs and of course with the assurance of maintaining the quality of products. Our speciality is always to be on the buyer's side to speculate their demands and this is what that helps us to meet their needs accordingly. Within a short span of time Kitty Industries Limited has been successful in taking up a sizable market share. Currently the company sells its products to various areas within the country and hopes to expand it to overseas market and we are very close to this target.

Kitty assures that its wide range of Products with its quality and designs can satisfy the customer's tastes and technical requirements. Kitty has specific products to cater different usages and standards and are specific to each national market needs. Kitty industries limited has developed more than twenty different types of switches and sockets, electrical installation accessories and lighting devices that cover the wide-range of applications. The Kitty industries limited commits to produce the highest standard products that reflects the high level of craftsmanship and stylish designs.

Kitty believes that a product cannot be good only because of the design and quality. Kitty's standard services and right time delivery complement the products for being competitive in the market. And we specialize ourselves in rendering our best services along with our quality products to our valuable customers. Because we believe that stable customers will be the strength of our company.

Kitty Industries Limited has over the years earned a reputation for the high standard of its quality products. Today electrical products are being manufactured to meet an increasing demand from both the industrial and residential sectors. The consistent quality of these products speak for itself. We will continue focusing our strength in electrical devices by channeling more resources for R&D to create even more superior products in terms of quality, better features and design. The number of satisfied Kitty Industries Limited customers is growing up every year and it is guaranteed that through the continuous development of fashionable top quality products this satisfaction will continue to grow even.

KITTY LED SOLAR (DC BULB)

- These bulbs run directly on 12V DC power from solar batteries, avoiding energy losses from AC conversion.
- Often consuming only 3W to 7W, a single 5W bulb can provide around 600 lumens.
- Feature "plug-and-play" designs with crocodile clips or simple pin-type connectors for direct battery attachment.
- Built with LED technology, they offer a long lifespan of up to 50,000 hours and are often shock-resistant for outdoor use.
- They are ideal for remote areas, camping, and emergency lighting, providing a sustainable alternative to kerosene lamps.
